

Template 3: Community Awareness & Impact Survey Community Awareness and Impact Assessment Questionnaire

This questionnaire has been designed to assess community awareness, participation, and perceived impact of sustainability and energy efficiency initiatives implemented through the project. The survey can be used before and after awareness campaigns, community actions, local events, workshops, or outreach activities to evaluate changes in knowledge, attitudes, and engagement levels.

The collected information will help youth workers, facilitators, local organisations, and stakeholders better understand community needs, measure the effectiveness of interventions, and identify opportunities for future sustainability initiatives.

Estimated completion time: 10–15 minutes.
